

# Ketterlinus Elementary PTO

Ketterlinus Elementary PTO is excited to support this years new **STEAM initiative - Science, Technology, Engineering, Arts and Mathematics.** Ketterlinus is passionate about incorporating this hands on approach in our classrooms to allow our students to experience learning in a new way.

We have accepted the challenge from Kathy Tucker to raise \$12,000 to support this new initiative and would like your help. We will be hosting several events in November to help us reach our goal.

HELP US MEET OUR  
\$12,000 GOAL
