

Kindergarten Switcheroo Camp

Ketterlinus Elementary

WHY?

Create balanced classes based on gender, race/ethnicity, literacy skills, mathematic skills, and social emotional needs

- Find the best student/student matches and student/teacher matches
- All students will build a relationship with all of the teachers
- Have the perspective of your child and his/her strengths and areas for support from multiple staff members that support the kindergarten grade level

WHAT?

Your child will attend school Monday–Thursday and report every morning to their “home base trainer”.

Throughout the day, the students will be rotating to all the kindergarten classrooms with different groups of students.

We will be covering classroom and school rules & procedures. We will be going over common language and behavior expectations to build a community that will carry throughout the year in kindergarten. Permanent classes will be built to foster a positive learning environment for each child. Permanent classes will be announced at the Switcheroo Celebration on August 14th.
